Bufftech®

Vinyl Fence Products

Why choose Bufftech® over other vinyl products?

Bufftech vinyl fence outperforms other vinyl fencing.

A vinyl fence is one of the largest investments you'll make to enhance the beauty and value of your home. While you may find a less expensive option, consider what you're really getting for your money.

Take a closer look at what sets Bufftech® apart from other vinyl fencing.

High-quality raw materials

When you purchase a Bufftech fence, you can be assured you're getting a high-quality product that's consistent from panel to panel, picket to picket. Bufftech vinyl fence is made with carefully selected ingredients designed to increase durability and long-term performance. Bufftech uses a high percentage of titanium dioxide, a critical additive that protects vinyl from potentially harmful UV rays, in all of its vinyl fence products. Lower-cost vinyl products often use less TiO₂ because of the added expense. Without it, vinyl fence can become cracked and brittle due to weathering.

Steel reinforced railings

Bufftech vinyl fence products feature a steel reinforced bottom rail for a stronger, more rigid fence, which reduces the chances of sagging or bowing.

Heavyweight pickets

Bufftech's heavyweight pickets provide superior impact strength and resist the warping and oil canning found in flat panel fence.

Routed rails and fence posts

Bufftech vinyl fence systems feature precision-routed rails for safe, secure picket attachment and easy assembly. Bufftech's routed fence posts provide a secure connection that allows for thermal expansion season after season.

Concealed fasteners

All Bufftech vinyl fence systems feature concealed fasteners for a sleek, clean finish. Pickets are installed without unsightly brackets, screws or glue that can compromise the safety and security of the fence.

Building code compliant

Bufftech vinyl fence is tested to the highest standards for performance. The Bufftech line includes styles approved for use around swimming pools and in high wind conditions (Miami-Dade County approved NOA#12-1106.11, expires 3-13-2018).

Meets ASTM standards

Bufftech vinyl fencing also meets the strict standards of the ASTM. Some vinyl fences do not comply with these specifications.

Innovative styles, colors and textures

Bufftech leads the vinyl fence industry with the widest array of styles, colors and textures. Our CertaGrain® and Select Cedar authentic woodgrain textures recreate the look of natural wood fencing, while our CertaStucco™ fence offers an innovative alternative to traditional stucco walls. The Bufftech color palette includes 9 solid colors and 4 blended colors.

ColorLast™ fade protection

Bufftech is the only vinyl fence manufacturer to offer ColorLast™ dark color fade protection, an acrylic formulation that provides superior protection from the harsh rays of the sun.

Lifetime limited warranty protection

Bufftech vinyl fence products are backed by an outstanding lifetime limited transferable warranty, which includes our exclusive SureStart™ protection. SureStart covers warranted repair and replacement costs – including labor – for five years after installation.

100 years of quality products, made in the U.S.A.

Bufftech vinyl fence is proudly made in the U.S.A. by CertainTeed Corporation, a trusted name in building products for more than a century. Since 1904, CertainTeed has earned a reputation among homeowners and building professionals alike as a respected manufacturer of high-quality building materials.

A better value over time

While a Bufftech vinyl fence may cost slightly more than other vinyl fence products, over time you'll find that Bufftech outlasts and outperforms its cheaper counterparts.

How does the competition stack up?

Bufftech premium vinyl fence provides performance features that far surpass other vinyl fences. Before choosing a fence, compare the features most important to you with what other vinyl fences offer.
